ABOUT ME

Ambitious Full-Stack Developer and Computer Engineering student with a focus on deploying scalable applications. I am actively exploring the intersection of web technology and Artificial Intelligence. I have a demonstrated track record of building live data systems, streamlining backend logic for speed, and crafting pixel-perfect, high-performance frontends.

FEATURED WEB PROJECTS

SIGNLINGO

Problem : Hearing and speech disabled people find problem while communicating

Solution : Developed web application that can be used for communication and can be used in various online meeting applications

- Link : <https://varadfegade.github.io/signLanguageProject/>

Smart Parking Management

Problem : Managing parking in large-scale areas is often chaotic and time-consuming. Users frequently struggle with congestion and face difficulty locating their vehicles after parking.

Solution : Web App that enables advance slot reservation (pre-booking) and provides a vehicle retrieval feature to help users find forgotten parking spots.

Codecraft 2K26 web app

Developed website for "code-craft" club in PCCOER

- Link: <https://codecraft-x-pccoer.vercel.app/>

EDUCATION

SPPU UNIVERSITY

B.E. Computer Engineering | 9.42 CGPA (SE Ongoing) – PCCOER, Pune

MATOSHRI JR COLLEGE

HSC – 79.83% (2024) – Matosgri Jr. College Nashik

K.NARKHEDE.VIDYALAYA

SSC – 94.00% (2022) – K. Narkhede Vidyalyaya

SKILL

- **Frontend Development:** React.js, Next.js 14, TypeScript, Tailwind CSS, HTML5, CSS3
- **Backend Development:** Node.js, Express.js (MERN)
- **Tools :** Git, GitHub, Vercel Deployment.
- **Others :** DSA in C++, OBS Studio

PROGRAMING LANGUAGES

- C++
- java
- python
- javascript
- c

LANGUAGES : ENGLISH, HINDI, MARATHI
